Teletypes to New York and Washington Field Offices, dated January 25, 1941.

DETAILS:

This investigation is predicated upon telephonic request made by Mr. PARKER BREESE, of the Bureau, of the Special Agent in Charge. He advised that DETLEV WULF BRONK was being considered for the position of technical expert in the Price Stabilization Division of the National Defense Commission.

Inquiry at Swarthmore College, Swarthmore, Pennsylvania, revealed that applicant graduated from that college in 1920.

[redacted] advised that Dr. BRONK's aunt, ISABELLE BRONK, was Professor of French at Swarthmore College for many years, and that she had educated Dr. BRONK. Dr. BRONK is the son of a preacher in New York City. The family's origin is Denmark, but the family has been in this country for several generations.

Inquiry of [redacted] at Swarthmore College, revealed that Dr. BRONK was Dean of Men at Swarthmore College from 1928 to 1929, and prior to that time had held a professor's position in the field of Physiology at Swarthmore. He said Dr. BRONK's college education was in the field of Engineering, and he transferred to the field of Medicine when he attended the University of Michigan, where he secured his M. S. degree in 1924. His purpose was to apply the science of Physics in the application of medicine, and in that way he became interested in Bio-physics, and he has been extremely successful in this field.

[redacted] he did not know what Dr. BRONK's political

77-438

attitude might be, but stated that he knew him to be a man of excellent reputation and ability. He said he did not know that Dr. BRONK was noted in the field of Economics or price stabilization, but that he was capable as an organizer; that it was understood that he did not handle the position of Dean of Men at Swarthmore very well, but that position was more or less forced upon him, and that might be regarded as somewhat of an excuse.

[REDACTED] at Swarthmore College, Swarthmore, Pennsylvania, advised that he has known Dr. BRONK for many years; that he [REDACTED] He said he and Dr. BRONK [REDACTED]

(b)(7)(C)

(b)(7)(D)

[REDACTED] He stated that Dr. BRONK is a man of great capacity and ability; that he is very capable in organization and administrative work; that it is his personal opinion that Dr. BRONK's success in the scientific field has been attributable largely to his organizational ability rather than to his ability as a research scientist, and that he was especially capable at the latter. He stated that Dr. BRONK is extremely ambitious. He also advised that he is glad to see Dr. BRONK's abilities being placed at the disposal of national defense, though he personally felt that price stabilization was the last place in which he should be, because he knew nothing of Dr. BRONK's ability in that field and considered that his field was scientific rather than economic. He did state, however, that possibly Dr. BRONK's organizational ability could be put to good use in the price stabilization matters. He stated that Dr. BRONK is well-acquainted with [REDACTED]

(b)(7)(C)

(b)(7)(D)

[REDACTED] BRONK had absolutely no Communistic tendencies; that he was a staunch Republican of the old school; that he regarded this war as unfortunate because of the fact that it will no doubt cause a change in the old order of living, and that Dr. BRONK abhorred such change. In this way, [REDACTED] Dr. BRONK would be a little on the side of appeasement in order to prevent a deep-seated change in the present American way of life. However, [REDACTED] had no doubt whatsoever as to Dr. BRONK's true American loyalty.

77-438

Inquiry was made at the Registration Commission, County Court House Building, Media, Pennsylvania, to ascertain Dr. BRONK's registration. However, it did not appear that he has registered to vote in Delaware County, in which country Swarthmore is located, and in which county Sycamore Mills is located. Dr. BRONK's residence in "Who's Who" is listed as Swarthmore, Pennsylvania. However, his residence is actually located at Sycamore Mills, a few miles from Swarthmore, in Delaware County. The county adopted the permanent registration system for county voters in 1937, and a check of the records since 1937 failed to reveal the name of Dr. BRONK or that of any member of his immediate family, though his aunt, Miss ISABELLE BRONK, of Swarthmore, Pennsylvania, was registered as a Democrat.

(b)(7)(C)
(b)(7)(D)

[REDACTED] Dr. BRONK generally took issue with his aunt, ISABELLE BRONK, on political matters, and [REDACTED] considered Dr. BRONK of staunch Republican viewpoint. He advised that on the BRONK automobile at the time of the last Presidential campaign, there was a sign, "A car-full of Wilkie voters." However, it does not appear that Dr. BRONK voted at all in the county of his residence.

(b)(7)(C)
(b)(7)(D)

[REDACTED] at Swarthmore College, stated that he has known Dr. BRONK since [REDACTED] and regards him as one of the outstanding graduates of Swarthmore College, who has made a noted success in the field of Biophysics. He stated that he had made a tremendous success at the Eldridge Reeves Johnson Foundation for Medical Physics, at the University of Pennsylvania, and recently has gone to the Cornell Medical School at New York City, where he now holds the chair of Professor of Physiology and Biophysics. [REDACTED] knew nothing detrimental concerning Dr. BRONK, but stated that he was a man of outstanding ability.

(b)(7)(C)
(b)(7)(D)

Agent interviewed [REDACTED] at the University of Pennsylvania, Philadelphia, Pennsylvania. [REDACTED] Dr. BRONK is a man of outstanding ability in the field of Physics as applied to Medicine — that he had made an outstanding success in that field at

(b)(7)(D)
(b)(7)(D)

the University of Pennsylvania, where he served from 1929 until July of 1940; that he knew nothing whatsoever detrimental concerning BRONK, whom he considered a man of the highest character. He stated that in July, 1940, Dr. BRONK took the chair of Professor of Physiology and Bio-Physics at the Cornell Medical School, New York City. He said Dr. BRONK, to his knowledge, had no connection with any outside business or corporation, and that his entire income was derived from educational sources. [REDACTED] did not know what Dr. BRONK's political affiliations might be. [REDACTED] he did not know that Dr. BRONK knew anything at all about the matter of price stabilization, but that he was an extremely capable scientist.

There is set forth herein a resume of the material contained in the publication, "American Men of Science" and "Who's Who", concerning Dr. BRONK:

"Bronk, Prof. Detlev W(ulf). Field of Physiology, Bio-physics. Born New York, August 13, 1897. A. B. at Swarthmore College, 1920. Lippincott Traveling Fellow, 1920-1922. Honorary Science Doctor, 1937, Swarthmore. M. S. Michigan, 1924. Assistant Professor Physiology and Bio-physics, Swarthmore, 1926-1927; Associate Professor and Assistant Dean of Men, 1927 to 1927. Professor and Dean of Men, Swarthmore, 1928-1929. Johnson Professor, Bio-physics, and Director Johnson Foundation, University of Pennsylvania, 1929. Professor, Graduate School of Medicine, U. of Pa., 1929 to 1937. Director of Neurological Institute in New York. National Research Fellow, Cambridge, London, 1928-1929. Member of Neurological Association, Optical Society, Harvey Society, Philosophical Society, Philadelphia Neurological Society, British Physiological Society. Corresponding member, Societe Philosophie de Paris. Author of studies on infra-red spectroscopy, electrical properties of glands, volume flow of blood, the physiology of sense organs and of the nervous system. Associate editor of the "Journal of Cellular Comp. Physiology." Member of the National Research Council, the AA Physiological Society. Contributor to the "Journal of Applied Science." An Ensign in the U. S. Naval Reserve Aviation Corps. Member of Sigma Xi, Delta Sigma Rho, Sigma Tau educational societies; Phi Kappa Xi social fraternity."

77-438

Under date of January 25, 1941, the New York Office was requested, by teletype, to conduct discreet investigation at the Cornell Medical School, New York City, to ascertain Dr. BRONK's reputation there and the identity of any corporation or business in which he might have a controlling interest.

The Washington Field Office was requested, by teletype on the same date, to ascertain from Dr. BRONK's income tax return similar information.
